

ROAD SAFETY

Driving is a regular action for many people, don't allow yourself to become complacent on the road:

- Stay alert, minimize distractions, and slow down in work zones! Signs before the work zone will tell you what to expect for delays. Be aware of the 3 Cs: cell phones, CDs, and coffee. They are the leading cause of driver inattention.
- Wait for school buses! Yellow lights warn of slowing and stopping, red means STOP!
- Delays due to traffic cause panicked speeding which is dangerous for other drivers, pedestrians, and in work zones: construction workers. Give yourself extra time and be aware of your surroundings. Be alert and ready to stop.
- Always wear your seatbelt and follow the road laws.
- Do not attempt to pass a plow or crowd the plow. Drivers have limited visibility and trucks can suddenly stop or be pushed sideways by drifts. It is for your safety and ours!
