

# KIDS SAFETY TIPS

**Stay safe while still having fun!  
Here are some tips for keeping our next generation safe:**

- Don't play on or near the road. This includes riding your bike, shooting hoops, or building a snow fort!

- Stay away from the edge of the road when waiting for the school bus or watching Road Commission equipment, especially snow plows!

- Remember to always use the right equipment, including wearing a helmet when riding your bike and wearing a seatbelt and sitting in the proper seat on car rides.

- Hold an adult's hand when crossing the road and around moving cars.
