

PROJECT ALERT

STARTING WEEK OF SEPTEMBER 2

The Van Buren County Road Commission will be completing a project in the Trestle Creek Subdivision in Almena Township. The project consists of milling the existing surface down to gravel and placing 4 inches of new asphalt. Please ensure sprinklers are not directed into the roadway and all vehicles are parked out of the right of way to preserve the asphalt surface that will be placed. This project will be completed as weather allows and minor delays are possible.

Questions about this project may be directed to Dave Clift at 269-674-8011 ext. 230.

This project is funded by Almena Township and Trestle Creek residents. Michigan Paving and Materials Co. is the prime contractor completing the project.
