

# VBCRC'S WEEKLY UPDATE

## FOR THE WEEK OF APRIL 24

### OPERATIONS

- Patching continues countywide on both Primary and Local roads.
- Gravel roads are being graded across the county.
- Boom mowing continues in Pine Grove and Decatur Townships.
- Crews are sweeping intersections in Keeler and Pine Grove Townships before moving to Hamilton and Almena Townships.
- De-berming continues this week in Antwerp Township. De-berming is the process of removing sod, soil, and material that builds up along the shoulder of the roadway. De-berming assists in prolonging the life of a road by allowing water to drain from the road surface. It also helps various surface maintenance applications such as an asphalt overlay or sealcoat adhere to the road.

*NOTE: ALL operations tasks are dependant on current weather conditions, equipment availability, and staffing and are subject to change. For detailed information regarding operations tasks, please contact our office.*

### ENGINEERING

- CR 352 between CR 687 and 60th Street in Keeler Township will continue with road and drainage work this week.
- Burgess Road between 38th Street and 82nd Avenue in Decatur Township will receive the top course pave this week, weather permitting.
- CR 380 from CR 665 to Columbia Township Line in Bloomingdale Township will receive the top course pave next week, weather permitting.

### MISCELLANEOUS

- Sealcoat and fog seal locations were due March 31st. The following Townships have not yet turned in locations:
  - Arlington Township
  - Waverly Township
  - Pine Grove Township
  - Bangor Township
- VBCRC's Summer Hours begin May 1st. Regularly scheduled hours will be Monday through Thursday from 6:00 AM to 4:30 PM.
