INTRODUCTION

On April 1, 1916 the issue of establishing a county road system was put in front of the voters of Van Buren County. The county road system was adopted by the voters and the Van Buren County Road Commission was established to provide the people of Van Buren County with a safe and efficient road and bridge network. The Van Buren County Road Commission serves the people of the county of Van Buren, including minority populations, low-income populations, the elderly, persons with disabilities, and those who traverse the State of Michigan. The Van Buren County Road Commission recognizes its responsibility to provide fairness and equity in all of its programs, services, and activities, and that it must abide by and enforce federal and state civil rights legislation.

Title VI of the Civil Rights Act of 1964, is the overarching civil rights law which prohibits discrimination based on race, color, or national origin, in any program, service or activity that receives federal assistance. Specifically, Title VI assures that, "No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefit of, or be otherwise subjected to discrimination under any program or activity receiving federal assistance." Title VI has been broadened by related statutes, regulations and executive orders. Discrimination based on sex is prohibited by Section 324 of the Federal-Aid Highway Act, which is the enabling legislation of the Federal Highway Administration (FHWA). The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 prohibit unfair and inequitable treatment of persons as a result of projects which are undertaken with Federal financial assistance. The Civil Rights Restoration Act of 1987 clarified the intent of Title VI to include all programs and activities of federal-aid recipients and contractors whether those programs and activities are federally funded or not.

In addition to statutory authorities, Executive Order 12898, "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations," signed in February of 1994, requires federal agencies to achieve Environmental Justice as part of its mission by identifying disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations. Environmental Justice Initiatives are accomplished by involving the potentially affected public in the development of transportation projects that fit within their communities without sacrificing safety or mobility. In 1997, the U.S. Department of Transportation (USDOT) issued its DOT Order to Address Environmental Justice in Minority Populations and Low-Income Populations to summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice. Also, Executive Order 13166, "Improving Access to Services for Persons with Limited English Proficiency (LEP)," provides that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program or activity that receives Federal financial assistance.

As a recipient of federal financial assistance, the Van Buren County Road Commission (VBCRC) must provide access to individuals with limited ability to speak, write, or understand the English language. The Road Commission will not restrict an individual in any way from the enjoyment of any advantage or privilege enjoyed by others receiving any service, financial aid, or other benefit under its programs or projects. Individuals may not be subjected to criteria or methods of administration which cause adverse impact because of their race, color, or national origin, or have the effect of defeating or substantially impairing accomplishment of the

objectives of the program because of race, color or national origin. Therefore, the primary goals and objectives of the VBCRC's Title VI Program are:

1. To assign roles, responsibilities, and procedures for ensuring compliance with Title VI of the Civil Rights Act of 1964 and related regulations and directives;
2. To ensure that people affected by Road Commission programs and projects receive the services, benefits, and opportunities to which they are entitled without regard to race, color, national origin, age, sex, or disability;
3. To prevent discrimination in the VBCRC programs and activities, whether those programs and activities are federally funded or not;
4. To establish procedures for identifying impacts in any program, service, or activity that may create illegal adverse discrimination on any person because of race, color, national origin, age, sex, or disability; or on minority populations, low-income populations, the elderly, and all interested persons and affected Title VI populations;
5. To establish procedures to annually review Title VI compliance within specific program areas within the Road Commission;
6. To set forth procedures for filing and processing complaints by persons who believe they have been subjected to illegal discrimination under Title VI in Road Commission services, programs or activities.

As the sub-recipient of federal transportation funds, the VBCRC must comply with federal and state laws, and related statutes, to ensure equal access and opportunity to all persons, with respect to transportation services, facilities, activities, and programs, without regard to race, color, religion, national origin, sex, socio-economic status, or geographical location. Every effort will be made to prevent discrimination in any program or activity, whether those programs and activities are federally funded or not, as guaranteed by the Civil Rights Restoration Act of 1987.

The VBCRC shall also ensure that their sub-recipients adhere to state and federal law and include in all written agreements or contracts, assurances that the sub-recipient must comply with Title VI and other related statutes. The VBCRC, as a sub-recipient who distributes federal transportation funds, shall monitor their sub-recipients for voluntary compliance with Title VI. In the event that non-compliance is discovered, the VBCRC will make a good faith effort to ensure that the sub-recipient corrects any deficiencies arising out of complaints related to Title VI; and that sub-recipients will proactively gauge the impacts of any program or activity on minority populations and low-income populations, the elderly, persons with disabilities, all interested persons and affected Title VI populations.

Discrimination under Title VI

There are two types of illegal discrimination prohibited under Title VI and its related statutes. One type of discrimination which may or may not be intentional is "disparate treatment." Disparate treatment is defined as treating similarly situated persons differently because of their race, color, national origin, sex, disability, or age.

The second type of illegal discrimination is “disparate impact.” Disparate impact discrimination occurs when a “neutral procedure or practice” results in fewer services or benefits, or inferior services or benefits, to members of a protected group. With disparate impact, the focus is on the consequences of a decision, policy, or practice rather than the intent.

The VBCRC’s efforts to prevent such discrimination must address, but not be limited to, a program’s impacts, access, benefits, participation, treatment, services, contracting opportunities, training, investigation of complaints, allocation of funds, prioritization of projects, and the overarching functions of planning, project development and delivery, right-of-way, construction, and research.

The Road Commission has developed this Title VI Plan to assure that services, programs, and activities of the Road Commission are offered, conducted, and administered fairly, without regard to race, color, national origin, sex, age, or disability of the participants or beneficiaries of federally funded programs, services, or activities (see Title VI Assurances).

**VAN BUREN COUNTY ROAD COMMISSION
NON-DISCRIMINATION POLICY STATEMENT**

The Van Buren County Road Commission reaffirms its policy to allow all individuals the opportunity to participate in federal financially assisted services and adopts the following provision:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” In applying this policy, the Road Commission and its sub-recipients of federal funds shall not:

1. Deny any individual with any services, opportunity, or other benefit for which such individual is otherwise qualified;
2. Provide any individual with any service, or other benefit, which is inferior (in quantity or quality) to, or which is provided in a different manner from that which is provided to others;
3. Subject any individual to segregated or disparate treatment in any manner related to such individual's receipt of services or benefits;
4. Restrict an individual in any way from the enjoyment of services, facilities or any other advantage, privilege or other benefit provided to others;
5. Adopt or use methods of administration, which would limit participation by any group of recipients or subject any individual to discrimination;
6. Address any individual in a manner that denotes inferiority because of race, color, or national origin;
7. Permit discriminatory activity in a facility built in whole or in part with federal funds;
8. Deny any segment of the population the opportunity to participate in the operations of a planning or advisory body that is an integral part of a federally funded program;
9. Fail to provide information in a language other than English to potential or actual beneficiaries who are of limited English speaking ability, when requested and as appropriate;
10. Subject an individual to discriminatory employment practices under any federally funded program whose objective is to provide employment;
11. Locate a facility in any way, which would limit or impede access to a federally-funded service or benefit.

The VBCRC will actively pursue the prevention of any Title VI deficiencies or violations and will take the necessary steps to ensure compliance. If irregularities occur in the administration of the program's operation, procedures will be promptly implemented to resolve Title VI issues all within a period not to exceed 90 days.

The VBCRC designates Linnea Rader, Road Commission Accountant, as the Title VI Coordinator. The Road Commission's Accountant will be responsible for initiating and monitoring Title VI activities and other required matters, ensuring that the VBCRC complies with the Title VI regulations and pursues prevention of Title VI deficiencies or violations. Inquiries concerning the VBCRC and Title VI may be directed to Linnea Rader, Accountant, Van Buren County Road Commission, P.O. Box 156, 325 W. The Van Buren County Road Commission designates Linnea Rader, Road Commission Accountant as the Title VI Coordinator (hereinafter referred to the “Title VI Coordinator”). Linnea Rader shall have lead responsibility for coordinating the administration of the Title VI and related statutes, programs, plans, and assurances.

Complaints: If any individual believes that he/she or any other program beneficiaries have been the object of unequal treatment or discrimination as to the receipt of benefits and/or service, or on the grounds of race, color, national origin (including Limited English Proficiency), sex, age or disability, he/she may exercise his/her right to file a complaint with the VBCRC. Complaints may be filed with the Title VI Coordinator. Every effort will be made to resolve complaints informally at the lowest level.

Data Collection: Statistical data on race, color, national origin, English language ability and sex of participants in and beneficiaries of the VBCRC programs; e.g., impacted citizens and affected communities will be gathered and maintained by the VBCRC. The gathering procedures will be reviewed annually to ensure sufficiency of the data in meeting the requirements of the Title VI program.

Program Reviews: Special emphasis program reviews will be conducted based on the annual summary of Title VI activities, accomplishments, and problems. The reviews will be conducted by the Title VI Coordinator to assure effectiveness in their compliance of Title VI provisions. The Title VI Coordinator will coordinate efforts to ensure the equal participation in all their programs and activities at all levels. The VBCRC does not have any special emphasis programs at this time.

Title VI Reviews on Sub-Recipients: Title VI compliance reviews will be conducted annually by the Title VI Coordinator. Priority for conducting reviews will be given to those recipients of federal (U.S. Department of Transportation) funds with the greatest potential of impact to those groups covered by the act. The reviews will entail examination of the recipients’ adherence to all Title VI requirements. The status of each review will be reported in the annual update and reported to relevant U.S. Department of Transportation (USDOT) modes upon request.

Annual Reporting Form: The Title VI Coordinator will be responsible for coordination, compilation, and submission of the annual reporting form data to the Michigan Department of Transportation (MDOT), Civil Rights Program Unit via the Sub-Recipient Annual Certification Form (MDOT form #0179) by October 5th.

The period to determine corrective action(s) and put it/them in writing to effect compliance may not exceed 90 days from the date the deficiencies are found.

LIMITED ENGLISH PROFICIENCY (LEP)

On August 11, 2000, President William J. Clinton signed an executive order, Executive Order 13166: Improving Access to Service for Persons with Limited English Proficiencyⁱ, to clarify Title VI of the Civil Rights Act of 1964. It had as its purpose, to ensure accessibility to programs and services to otherwise eligible persons who are not proficient in the English language.

This executive order stated that individuals who do not speak English well and who have a limited ability to read, write and speak, or understand English are entitled to language assistance under Title VI of the Civil Rights Act of 1964 with respect to a particular type of service, benefit, or encounterⁱⁱ. These individuals are referred to as being limited in their ability to speak, read, write, or understand English, hence the designation, “LEP,” or Limited English Proficient. The Executive Order states that:

“Each federal agency shall prepare a plan to improve access to its federally conducted programs and activities by eligible LEP persons. Each plan shall be consistent with the standards set forth in the LEP Guidance, and shall include the steps the agency will take to ensure that eligible LEP persons can meaningfully access the agency’s programs and activities.”

Not only are all federal agencies required to develop LEP plans as a condition of receiving federal financial assistance, recipients have to comply with Title VI and LEP guidelines of the federal agency from which funds are provided as well.

Federal financial assistance includes grants, training, use of equipment, donations of surplus property, and other assistance. Recipients of federal funds range from state and local agencies, to nonprofits and organizations. Title VI covers a recipient’s entire program or activity. This means all parts of a recipient’s operations are covered, even if only one part of a recipient’s organization receives the federal assistance. Simply put, any organization that receives federal financial assistance is required to follow this Executive Order.

The VBCRC receives funds from the US Department of Transportation via the Federal Highway Administration.

For more information with regarding our policies on LEP, copy of our LEP plan can be found on our website at www.vbcrc.org or a copy of the plan document can be requested from:

Linnea Rader, Accountant, either in person at 325 W. James Street, P.O. Box 156, Lawrence, MI 49064, via phone at (269) 674-8011, via email at LinneaRader@vbcrc.org, and/or via fax at (269) 674-3770.

ENVIRONMENTAL JUSTICE

Compliance with Title VI includes ensuring that no minority or low income population suffers “disproportionately high and adverse human health or environmental effect” due to any “programs, policies and activities” undertaken by any agency receiving federal funds. This obligation will be met by the VBCRC in the following ways:

- When planning construction projects, identifying those populations that will be affected by a given program or project.
- If a disproportionate effect is anticipated, following mitigation procedures.
- If mitigation options do not sufficiently eliminate the disproportionate effect, discussing and, if necessary, implementing reasonable alternatives.

Disproportionate effects are those effects which are appreciably more severe for one group or predominantly borne by a single group. The VBCRC will use U.S. Census data to identify low income and minority populations.

Where a construction project impacts a small number or area of low income or minority populations, the VBCRC will document that:

- Other reasonable alternatives were evaluated and were eliminated for reasons such as the alternatives impacted a far greater number of people or did greater harm to the environment; etc.
- The project’s impact is unavoidable;
- The benefits of the project far out-weigh the overall impacts; and
- Mitigation measures are being taken to reduce the harm to low income or minority populations.

If it is concluded that no minority and/or low income population groups are present in the construction project area, the VBCRC will document how the conclusion was reached. If it is determined that one or more of these population groups are present in the area, the VBCRC will administer potential disproportionate effects test.

The following steps will be taken to assess the impact of project on minority and/or low income population groups:

STEP ONE: Determine if a minority or low income population is present within the project area. If the conclusion is that no minority and/or low income population is present within the project area, document how the conclusion was reached. If the conclusion is that there are minority population and/or low income population groups present, proceed to Step Two.

STEP TWO: Determine whether project impacts associated with the identified low income and minority populations are disproportionately high and adverse. In doing so, refer to the list of potential impacts and questions contained in Appendix E. If it is determined that there are

disproportionately high and adverse impacts to minority and low income populations, proceed to Step Three.

STEP THREE: Propose measures that will avoid, minimize and/or mitigate disproportionately high and disproportionate adverse impacts and provide offsetting benefits and opportunities to enhance communities, neighborhoods and individuals affected by proposed project.

STEP FOUR: If after mitigation, enhancements and off setting benefits to the affected populations, there remains a high and disproportionate adverse impact to minority or low income populations, then the following questions must be considered:

Question 1: Are there further mitigation measures that could be employed to avoid or reduce the adverse effect to the minority or low income population?

Question 2: Are there other additional alternatives to the proposed action that would avoid or reduce the impacts to the low income or minority populations?

Question 3: Considering the overall public interest, is there a substantial need for the project?

Question 4: Will the alternatives that would satisfy the need for the project and have less impact on protected populations (a) have other social economic or environmental impacts that are more severe than those of the proposed action (b) have increased costs of extraordinary magnitude?

STEP FIVE: Include all findings, determinations or demonstrations in the environmental document prepared for the project.

APPENDIX E - DETERMINE/DISTINGUISH SIGNIFICANT/NON-SIGNIFICANT EFFECTS

“Significant” requires considerations of both context and intensity:

- (a) *Context*. This means that the significance of an action must be analyzed in several contexts such as society as a whole (human, nation), the affected region, the affected interests, and the locality. Significance varies with the setting of the proposed action. For instance, in the case of a site-specific action, significance would usually depend upon the effects in the local area rather than in the world as a whole. Both short-and long-term effects are relevant.
- (b) *Intensity*. This refers to the severity of impact. Responsible officials must bear in mind that more than one agency may make decisions about partial aspects of a major action. The following should be considered in evaluating intensity:
 - (1) Impacts that may be both beneficial and adverse. A significant effect may exist even if, on balance, the effect would be beneficial.

“Non-significant effect” means no substantial change to an environmental component and this no material bearing on the decision-making process.

Scientific, technical, institutional, the public’s value, and the local economic conditions influence the meaning of significant effect.

If an alternative would provide a beneficial effect, then the alternative would cause no significant adverse effect. If an alternative would provide an adverse effect, the effect might be significant or the effect might be non-significant.

Determinations of “significant” and “non-significant” effects will be made by the VBCRC Engineer-Manager.
