

VBCRC'S WEEKLY UPDATE

FOR THE WEEK OF MARCH 25

OPERATIONS

- VBCRC continues to sweep intersections this week.
- The crew on 30th Avenue between 75th and 76th Streets in Covert Townships has moved from ditching to installing crosspipes and driveway tubes.
- Boom mowers are still out on local and primary roads county-wide.
- Pothole patching crews are working on the primary road system county-wide.
- De-berming season is upon us! De-berming is utilized to assist in drainage by removing the small berm of soil and vegetation along the road ways that prevent water from flowing off the road. It is also used to clear road edges for better adhesion of various surface treatments. Locations will be posted daily on our social media channels.

ENGINEERING

- Progress on CR 689 between 8th Avenue and CR 388 in South Haven Township will continue as contractor availability allows.
- VBCRC crews are removing trees on CR 388 between CR 653 S and the Kalamazoo County Line in Pine Grove Township in preparation of a larger project to occur this construction season. More information can be found at vbcrc.org/bidtabulations.

MISCELLANEOUS

- As a reminder, all sealcoat and de-berming locations are due by March 31st. For any questions or assistance, please contact Alyssa McAndrew via email at alysamcandrew@vbcrc.org.
- The VBCRC issued a News Release regarding its mowing policy and imploring farmers to help protect roads by not sowing within the Right-of-Way. This News Release can viewed on our website at VBCRC.org/NewsReleases

NOTE: ALL operations are dependent on current weather conditions, equipment availability, and staffing and are subject to change. For detailed information regarding daily operations, please contact our office.
